Subject: Next Agenda

Thanks for ruining any hope of making Petersburg a better community or getting the economy moving. As usual you jokingly " listened to All". what is next on your liberal agenda? Book burning? mandatory vaccines? gun confiscation? invite us to a gas chamber gathering? lockdowns? house searches? get rid of churches? goodbye Petersburg hello North Korea. you are clueless that it is about masks. It is about FREEDOM! I choose to not be harmed by a virus. others are choosing that it can hurt them. both of us have the right to do that. you cannot choose for me how i will run my life or manage my health as in I Am Not Wearing A Filthy Mask!
