Subject: Mandates of any kind.

Unless you nuke Petersburg there is no way you can control any germ, bacteria, virus, allergen or whatever a lot citizens of Petersburg are afraid of. Masks are useless and dirty and very unhealthy but if you think they work you might have to wear one for the rest of your life. There are many ways to be well and healthy and being with family and friends and unity in the community Should be the number one priority. Those coming from a place of Fear should not be calling the shots for others. Fearful ones should STAY HOME, WEAR YOUR MASK, WAIT FOR A VACCINE, WASH YOUR HANDS and let the rest of us get on with our lives. Everyone is responsible for every aspect of their life not the Borough, not PMC, Not "Experts" on media and certainly not Fearful people. Mandating that we follow rules of any kind will result in a terrible disunity for years to come. Be Better and smarter than all the other communities. I trust that each of you wants what is best for all so you in turn need to trust me to manage my life.

I Receive Everything I Need All The Time
