**Subject:** Natives without land

I am a Landless native, born and raised in Ketchikan. I have waited too long for this to be legislation to be passed. I am now 65 as most of us are today who have been waiting. To ask the Landless to wait on the Bill is to ask us to stay alive. A lot of people have died waiting for this. How many more have to die. Please wait like we have been doing for 49 years now .
