**Subject:** Letter of Interest - SEAPA BOARD

I would like to express my interest in becoming either a voting representative or an alternate member on the SEAPA board representing the Petersburg Borough. I'm resigning from my Electrician position for Power and Light effective December 8<sup>th</sup>, 2017, and will have the flexibility and time to perform these duties. My twenty-three years of electrical trade experience and familiarity with SEAPA and its personnel allows me to seamlessly enter into this board position. I have an intimate knowledge of Petersburg's facilities and how we're interconnected between three communities. I also have some historical knowledge of how SEAPA was created and the previous Thomas Bay Power Authority which preceded SEAPA. I believe I could serve the community well on this board and help protect the Borough's interests. Please feel free to call me anytime with any questions or concerns.

Respectfully;

**Gary J. Morgan**

*Electrician*

**Petersburg Municipal Power and Light**
