RE: Land Selection Priorities

The AK DNR is in the process of adjudicating Petersburg's municipal land selections. The DNR began its review in December 2017 and is adjudicating the initial selections Petersburg submitted as well as some additional lands surrounding those initial selections. This review comprises 1,826 acres.

According to DNR, this initial review is nearing completion and they have requested the borough's priorities for the next round of adjudication. Below is approximately 3,700 acres of selected land to consider as priorities for adjudication:

Legal Description	Area	Acreage
T54E, R75E T58S, R75E	Cape Fanshaw	1,809.23
T58S, R79E	North Kupreanof	593.41
T60S, R80E	Falls Creek	320
T61S, R79E	Duncan Canal	21.78
T61S, R82E	South Mitkof	67
T62S, R81E	Woodpecker Cove	836.19
		3697.612

The borough's full entitlement is 14,666 minus lands already received (458) or 14,208 acres.
