Mayor Jensen and Assembly Members,

Thank you all for the work and effort that you put into serving the community of Petersburg. I would like to comment regarding the ordinance requiring face coverings. This seems to be an unnecessary step of control over the residents of the community, I urge you not to require the use of face coverings.

Regarding the requirement of businesses to submit travel plans to the borough, I urge you not to pass this ordinance. The state of Alaska is working with businesses and communities to come up with consistent statewide regulations.

Thank you for taking time to consider my thoughts.

Bryon Pfundt
