Dear Borough Assembly -

Heard abt. your burning notice on KSFX.
As an asthmatic, there are days i can barely
walk thro certain neighborhoods as someone is
burning their plastic, rubber, aerosol cans, wrapping
paper, oil jugs, (you get the picture?). I hear so much
about saving ~~old~~ whales & old growth ~~forests~~
forests, so when i heard about the Burn Permit
info on today's PSA, i must ask you, to please
consider your fellow citizens who are asthmatics.
I ask you to think about ways we can do better for
all residents.

Separate & keep backyard burn bands. — i ?
who inspects that?
I know ... I know ...

Education Education Education.
It begins w the kids - hopefully they can help us
teach all concerned, that burning plastic sucks —
No pun intended. We need to do better in our own kitchen
& backyards. have a dump that takes TRASH & buries it.

Thank you

Teresa Balboni
