Subject: Re: SRS Funds

Debbie,

A community's Secure Rural Schools payment is determined by a formula that factors in its total Forest Service acreage and its per capita income. Its SRS payment and amount are separate and distinct from any timber sales within the community. Any changes in a community's SRS payment occur only if there is a change in the amount of Forest Service acreage within its borders, a change in community per capita income, or a decline/increase in overall funding for the SRS program.

Seb
