Subject: Temporary ordinance

Assembly members,

To understand your place of representing and making descions for such a diverse community is beyond me. We are thankful for your efforts, it must be taxing to have such a place. And yet I encourage you to think hard that you do have the trust of many and I would suggest being very careful about overstepping authority. It is my opinion that taking any action tonight that takes away peoples choice is a sad use of your position. With gratitude- Chelsea smith
