Subject: Parks and Rec age restrictions

Hello! I am a mother of two responsible boys. My youngest one, 9 years old, is more than independent and responsible enough to be at the facility without my presence. As a mom I know my kids better than anybody else. For the age restrictions and having to have parents with them in the facility in order for him to play or swim is not reasonable. I attended the meeting and the reasons presented were all bogus! We should understand that we're living in a place where outdoor activities are limited especially in my child's case who has asthma. I am willing to sign a waiver if need to. Thank you.
