Subject: Please approve Mandate # 7:

Hello Mayor and Assembly Members,

I request that you approve Mandate # 7: Isolation and quarantine in non-congregate shelters for homeless, first responders and health care workers who need to quarantine due to positive or suspected positive test for Covid 19.

I also request that you seek the use of existing Forest Service housing (bunkhouse, etc.) for that purpose. The use of that housing makes practical sense because it would require no huge logistics to use immediately. As I understand those facilities are already fully functional and equipped to immediately accept occupants.

Thank you,

Rebecca (Becky) Knight
