**Subject:** Comparison of Coronavirus strategies

Dear members,

I just read an excellent analysis of Coronavirus control strategies used by various countries and published by the Australian Broadcasting Company (ABC). If you have 20 minutes I recommend that you consume it. The graphics are wonderful. If not, then scroll to the last graph which shows the dramatically different results obtained for three levels of compliance to social distancing.

Thank you for all the hard work you do for the community.

Paul Bless
