Subject: Further Mandates

From cell Block Frederick Drive

If you go through with further mandates at this time your just asking to much of a city that has done more than cooperate with all your ridiculousness. *Get a freaking grip! We neither need or want your over reaching control of our freedoms. ENOUGH!* If you think doubling down like Michigan is a good idea then expect the same result.

In a time when everyone is at the breaking point and we hear the numbers and start to hope if you respond with even more stupid over reaching measures. You will break this community. We need public servants! Not partisan hacks wielding their own agenda like sticks at our community!
