e

Dear Mayor Mark Jensen and Assembly Members:

Please collectively watch this attached video regarding the implications of vaccinating the citizens of Petersburg for Covid 19. Upon your review please consider how this information can best be shared with the community. Based on what I listened to, those who have been vaccinated have sadly compromised their God given immune system. Hopefully you will inform those who have chosen to be vaccinated of the associated risk. The future looks very bleak for those who have taken the shot. Respectfully, Don Koenigs
