Petersburg Borough Assembly Members,

The Petersburg Chamber of Commerce board and members fully support Resolution #2020-10A Resolution Approving the Sole Source Purchase of 2-Station Handicap Accessible Restroom Trailers.

Public restrooms have long been a need for the downtown area, local private businesses have a difficult time managing all of the traffic needing restrooms, and many have aging infrastructure. The ADA portable restrooms will also be a benefit, not only to locals, but visitors who are out and about shopping in the downtown area, especially during times of large gatherings and festivities. One of the priorities to come out of the Visitor Industry working group was getting public bathrooms into the downtown area, whether permanent or temporary. This purchase seems like a great opportunity to provide for a need that we have in our local community. The Petersburg Chamber urges you to pass resolution #2020-10 A Resolution Approving the Sole Source Purchase of 2-Station Handicap Accessible Restroom Trailers.

Thank you for your service to our community and your consideration of this solution to a longtime issue.

*Mara Lutomski*

Administrator, Petersburg Chamber of Commerce
