Subject: Ordinance 2020-19

I strongly encourage passage in second reading of Ordinance 2020-19 regarding Providing for civil emergency provisions by the Petersburg Borough Assembly.

Additionally, I feel the increasing positive results of non-symptomatic Covid-19 testing, indicate the need for strong encouragement of use of masking , including cloth face coverings, and social distancing , up to and including making these requirements mandatory, be enacted. Masking exemptions for those with breathing difficulties or other medical conditions that make the wearing of masks or face coverings dangerous , and for children of tender age allowed. Social distancing required whenever and wherever space allows.

Thank you for your consideration
