Subject: Health Mandate 7

First I want to thank all the borough and hospital employees that have worked so hard to ensure our safety at this very difficult time. I am for the Mandate #7 to provide quarantine shelter for the ems/healthcare/homeless if needed. Apparently the wording is off putting to some from what I have seen on social media and the words "any individual" has some people upset that this mandate may be used on the general public. I liked Karl's response today on the call in show that there already is a law in place by the Department of Health if it is needed. It may ease peoples minds a bit though if the wording was more specific to the homeless, emergency and hospital workers. I am in support of this mandate and have real concerns about the homeless in Petersburg, or the health care worker who may become not only exposed but test positive and have to possibly quarantine with family members who may be vulnerable. Thank you again for all your hard work, you are doing a great job....all of you!
