Subject: Thank you all

To the Petersburg Borough Assembly,

We would like to thank the entire assembly for all the extra time and effort you all are putting in during these trying times. Under the best of circumstances an assembly member's job is a thankless one. Covid-19 has made your job even more difficult and subject to negative public opinion. Thank you all for your community service and the heartfelt effort and genuine concern you all are currently exhibiting. Debating such controversial topics in a constructive, civil and respectful manner is no small achievement and a great example for the community at large.

We would like to extend a special thanks to the mayor for his even handed approach and calm demeanor when conducting the meetings. Your efforts go a long way towards calming things down and allowing everyone a constructive and safe atmosphere in which to express their views on contentious issues.

Thank you for your time and efforts,

Bo Varsano

Marja Smets
