Memorandum

To: Steve Giesbrecht, Borough Manager CC: Karl Hagerman, Public Works Director

From: Chris Cotta, Assistant Public Works Director

Re: Mountain View Manor Wheelchair Accessible Van

As you know, replacement of Mountain View Manor's existing van has been in the works for a while now. This van has served the purpose although it is not ideally configured for transporting the elderly. In particular, it lacks a wheelchair accessible feature to allow transport of those with impaired mobility. Grant funding for a wheelchair accessible vehicle was sought, and late in 2013 two grants were obtained and grant agreements totaling \$32,899 were received. The revenue from these grants was not figured into the initial drafts of the FY15 budget, but this has now been corrected in the current budget ordinance before the Assembly.

In anticipation of these grants, local matching funds of \$27,925 were included in the FY2014 Borough Budget and have been included in the proposed FY2015 budget as well. Total for these two funding sources (Borough budget, and the van grants) comes to \$60,824.

In order to ensure that a suitable vehicle was obtained while meeting all of the numerous State and Federal requirements contained within the grants, it was decided to pursue a cooperative purchase through an existing government contract that already satisified provisions such as safety testing/certification, and various manufacturing and procurement standards. Since the Alaska State Equipment Contract did not list a vehicle meeting our requirements, we decided to utilize the Washington State vehicle procurement contract, which had several vehicle specifications that met the grant requirements.

Cooperative purchases of this type are allowed by Borough Code, Section 4.04.040.G. Our proposed cooperative purchase has also been given preliminary approval by the Washington State Contract manager, as well as the State of Alaska representatives that are managing the grant agreements for this vehicle.

After working with Mountain View Manor staff to determine the specifics of their elderly transportation needs, a vehicle specification from Washington State Contract #06209 was selected and priced. At the

time of this memo I do not have a formal quote from the dealer, EK Bus Sales, although they will have to honor the WA State Contract pricing for the unit. This being the case, I've attached the spreadsheet showing the cost of the unit including all selected options, plus one non-contract option quoted by EK Bus. The toal vehicle price comes to \$61,686.96, plus an estimated \$2000 shipping, for a grand total of \$63,686.96. Although this is more than the combined total of the grant funding and budgeted local match, if all available funding is considered the funding picture breaks down as follows:

MVM Van Budget FY14/Proposed FY15	\$27,925
Grant Funds	\$32,899
Transfer of exst. MVM van to P&R	\$ 8,000
Total Funds Available	\$68,824

The transfer of the existing van to Parks-N-Rec was approved by the Assembly at the last meeting on May 5. As can be seen by the preceding funding summary - taking all funding sources into account, if the Mountain View Manor replacement van purchase is approved as requested there would be approximately \$5000 remaining. This balance would be placed in the vehicle replacement fund for this unit.

Besides budget, another critical element to consider is the time factor. Both grants expire on June 30, 2014 so we did not get a very large window between the issuance of the executed grant agreements (in Oct and Dec of 2013) and their expirations. However, we can extend the grant periods once a purchase agreement is in place. It is expected that we will need to apply for extensions since the delivery time for the selected vehicle ranges from 100-150 days after placement of the order. However, if we can apply for the extensions now we should be able to obtain the necessary approvals prior to grant expiration.

For the reasons outlined above, the Motor Pool Dept. recommends purchasing the described wheelchair accessible van from EK Bus Sales for a total not to exceed \$63,777.36. If you agree with this recommendation, please present it to the Borough Assembly for consideration at their next regular meeting on May 19, 2014. I will be present to answer any questions that you or the Assembly may have in regards to the proposed acquisition. Thank you.

Attachment: WA State Contract Vehicle Pricing for Proposed MVM Van
