

My current contract expires around the first of November 2018. I am currently making \$116,334 annually.

I would like the Assembly to consider the following:

- Five Year renewal of my contract to November 2023
- Increase in car allowance to \$250 a month from \$100
- Salary increase to \$121,000, with **no** further increases for the life of the extended contract. This is approximately a 4.0% increase over almost a nine-year period (last three years, plus the one year left on my existing contract, and the additional five).
- Increase of the Borough's match to 1.5 to 1, for the ICMA 457 plan. Example, I contribute \$1, the Borough contributes \$1.50 up to a maximum of 3% of my salary. At the above salary, the Borough's match would max out at \$5,445 a year, up from \$3,495 a year now; an increase of \$1,950 a year if I contribute the max of 3%.
