**Subject:** Thank you

Petersburg Assembly Members, Mayor Jensen

Thank you for extending the Public Health Mandates. Considering the opposition you received, it took some courage for you to do the right thing for the Borough. As Karl testified, the fact that the State allowed their mandates to lapse makes it even more important to have local mandates in place. I just wanted you to know that even though you sometimes face much vocal and written opposition, the vast majority of the community stands behind you and really appreciates what you do.

Barry and Kathy Bracken
