**Subject:** Wow!

Good grief! Are you all high! The state asked that you make sure you have a place for those who don't have somewhere to go. AND this is what you come up with! The proposed area is so completely inappropriate it's terrifying! The lack of faith in our community is appalling and unbecoming of our elected leaders. We have laws in place. We do not need covid specific laws. Also the wording is vague and careless. You need to slow down and get some feed back from your community. The fact you've decided that you are better equipped is again offensive and false.

In my life I never believed our freedoms would be so carelessly thrown away. It's so blatantly a disgusting overreach of your position it's quite frightening. How about NO!

Not in my country!

God Bless America

Jennifer Thynes
