**Subject:** Assembly resolution on Kake Access Project

Nancy and I are in favor I'm having you pass this resolution so further review of the Kake access project can be done.

Just because the money has been allocated does not mean we need this road nor does it appear to be wanted by the people of Kake and many people in Petersburg.

Let's figure out a way for the principles in the project to be more accountable and responsive to residents in the area

Thanks  
Dave and Nancy Berg
