Subject: Brandi's YouTube video

I've received your trite thank you for your opinions emails. But did you actually read it, did you actually think about it ,did you actually think that maybe somebody knows something that you might not know! If you don't watch Brandi's video and listen to the whole thing all the way through with an open mind then you are not doing your job "your public service" isn't to be right! Its to actually listen to the citizens of your community all your citizens. Not just medical professionals who are invested in the continuing crisis or lack of crisis in our community!
