**Subject:** Thank you!

Thank you for passing the mask and testing mandates!!!!

It's the only way we can keep case #'s low here. Case in point:

My in-laws were going to pop down from Juneau the day before Thanksgiving when the testing was "highly encouraged" and weren't going to test 😊 but now are not coming. They also decided it wasn't worth the risk of getting Covid by traveling. So,, people can get cranky about it but I applaud you for following the medical people recommendations!
