Subject: apology

my apologies for my uncalled for angry outburst toward you earlier today. i am a Native and have spent my whole life having to fend off people who tell me I am not capable of managing my own life. it is a very sore spot with me. i am not afraid of viruses and know how to not be sick from them so please leave me alone. i am sure you are doing your best for the frightened ones. Blessings to you.

I Receive Everything I Need All The Time
