

To the Petersburg Borough Council,

May 22, 2017

Enclosed is a letter I have sent to Alcohol and Marijuana Control Office.

I am also requesting from you a decision to not allow the growing of Marijuana on the main street of Petersburg or any where in area one. For the reasons stated in the letter to the Alcohol and Marijuana Control Board.

Please make it harder for youth to access Marijuana in our Borough.

Sincerely,

Marj Oines

May 18th 2017

To Whom it May Concern,

Please do not allow Susan J. Burrell and Chris Whittlesey a license (#12781) for SEA*WEED FARMS, which would be located on Petersburgs main street.

This area is too close to our schools. I have personally seen groups of 8-10 kids walking down Dolphin Street heading for Main street during lunch hours. When students from other schools (Wrangell, Ketchikan, Juneau, Sitka and others from Alaska, come here for basketball, baseball, or wrestling it is to Main street where they all head for shopping and food.

Our country has acknowledged that smoking cigarettes is very harmful to health. Yet now smoking Marijuana is in vogue. It's the thing to do. And it makes no sense. Ingesting Marijuana is being accepted. It is readily known that both methods of use alters the mind.

Surely it makes sense to put the facilities that grow and sell Marijuana out of the main population areas.

See map below.

Sincerely,

Marjorie Oines
