**Subject:** Petersburg council members ...

**July 15, 2020**

**Mr. Mayor & Petersburg council members :**

1. I would like to voice my concern and disapproval of any ordinance changes that would put more power in the hands of less people. A very large portion of our community is in agreement that there is no true emergency in Petersburg Alaska. Continuing mandates/changes/ and lobbying for stricter measures, is not necessary. There are PLENTY of Data sources and experts that attest to this fact. I encourage all council members to not only look at opposing data, but also to be open to the implications of that data.
2. Continuing to Not allowing public attendance at Council meetings is causing unrest in this community. letters, emails and other correspondence has been consistently late in being brought to the table for discussion and/ or been heard. Council and EOC are directly responsible for this. Other communities in this state are allowing public attendance.

Thank you for your time, Donald Sperl
