Mayor and Assembly,

I am writing to voice my opposition in passing a mask mandate. I oppose this for many reasons, one the lack of scientific data that proves their effectiveness. We can use different studies and debate back and forth on effectiveness, but there is a larger issue when it comes to you as an assembly mandating a mask order. Just as the governor said he is not going to tell us how to live our lives, but suggest and ask for help to battle covid, I don't think any of you should be dictating to any of you fellow community members. People are at their wits end of being dictated to from big and little government, school officials, employers, etc. Encourage but don't add to the division in this town by acting as if any of you know what's best when it comes to a pandemic that even global experts don't have solid answers to.

Thanks,

Brandi Thynes
