Member Havrilek expressed his opposition to the ordinance. He stated his belief that this ordinance would only benefit one resident at this time, but it could also set a precedent as a tax loophole in the future for others, such as fishermen.

Member Gregor agreed with Member Havrilek. He said he liked the idea of promoting agriculture in Southeast for the production of food items but not marijuana.

Ordinance #2015-02 failed by unanimous roll call vote.

Member Havrilek made a motion to award the bid to Tamico under the local bidder preference but at Western Dock & Bridge's lower bid amount of \$165,500. Member Strand questioned the legality of changing the bid amount. Manager Giesbrecht informed everyone that he and Harbormaster Wollen discussed this with the Borough Attorney. He explained that the Assembly was only voting, at this point, on who they intended to award the bid to at the next meeting, and could not ask that the bid amount be changed. He also informed that the insurance company may not honor the local bidder preference at a higher rate. At that time, he said, the issue would come before the Assembly again. The Assembly and Manager Giesbrecht discussed some of the pros and cons with using the local bidder

preference, since this was the first time it has come up, including keeping money local and supporting local business. Member Havrilek then amended his motion to award the bid to Tamico.

The intent to award bid was made to Tamico by unanimous roll call vote.

15. Communications

16. Assembly Discussion Items

Manager Geisbrecht gave a report on the status of the municipal renovation project. He reported that he is waiting for the architects to present a cost analysis to the Borough, at which time he and Finance Director Tow will look at it and come up with a financial plan. Member Wohlhueter expressed his opposition to asking the public for help or taking from the budget reserves to finance the project. He also requested that the Public Safety Board have some input on making the decision for cuts to the cost of the building. Chief Swihart reminded the Assembly that the Public Safety Board did approve the concept for the renovation. Member Lynn asked whether there had been discussion with the architect about reducing or phasing the project. Manager Geisbrecht summarized the discussions he had with the architect about the phasing aspects of the remodel plan. Member Havrilek stated that he wanted to be more proactive in instructing the architect to work within the budget the Borough has for the project. He also expressed his opposition to asking the voters to help fund a portion of the building or borrowing from other Borough fund reserves because there would be no way in the future to pay it back. Member Wohlhueter stated his belief that the Borough should not use money that has been set aside in reserves for a "rainy day", because he believes the financial future is unsure. Member Lynn agreed with Member Wohlhueter's opinion. Manager Geisbrecht stated that if the Assembly is saying that they do not want to use any Borough money for the renovation, the project will die. Member Strand asked for a reminder of where the current \$6 million for the project came from. Finance Director Tow informed the Assembly that the funds are from State legislative grants that will expire, at some point, and some funds from the Borough's property development fund. Member Strand reminded the Assembly that it will never be cheaper to renovate the building than it is now. Member Lagoudakis recommended that the Borough educate the public on the consequences of not renovating the building. She also reminded the Assembly that the Borough departments do put money in reserve for when problems arise and that the police department is in a near emergency situation. Harbormaster Wollen shared her experience in working with big projects and how to use alternates to take advantage of the competitive nature of the business.

A. Recognitions

Member Gregor expressed his appreciation for Marv King's hard work and great attitude over the derby weekend and for keeping the fisherman supplied with ice. Member Wohlhueter recognized Brad Taylor and the track team for their success this year. Member Lagoudakis thanked Jesse O'Connor for his hard work in keeping Buschmann Park looking so nice. She also recognized Jim Rogers for mentoring children at the library.
