Subject: Marine Mammal Protection Act

Mark,
Senator Sullivan does intend to work on Marine Mammal Protection Act issues in 2018 but there is not yet a specific time/plan. If there are ideas that you or others in the community have to affect the sea otter issue, I can set you up with our staff that will be working on that in DC.
If you or others from Petersburg end up going to DC, an in-person conversation would be even better, just let me know.
Thanks for reaching out!

Chére Klein
