Subject: CNN: 'From worst to first': These states have tamed coronavirus, even after reopening. Here's how they're doing it, and why they can't let up

'From worst to first': These states have tamed coronavirus, even after reopening. Here's how they're doing it, and why they can't let up

While more than half the states have paused or backtracked reopenings due to increased Covid-19, several states have decreasing rates of infection, hospitalizations and deaths — paving the way for full economic reopenings.
