**Subject:** Masking Mandate

To Whom It May Concern,

In the KFSK Daily Coronavirus Show from Wednesday, April 15th, the Petersburg Borough announced that the borough is currently developing several additional mandates. These mandates will add to the requirements and limitations of freedom for businesses and individuals that reside in the Petersburg Borough.

I would like to state my opposition to any further masking mandates. America has always stood for individual freedoms, and although at this point in history it seems very appropriate to advise and recommend for the wearing of masks in public places, making a mandate, requirement or law that all persons shall wear masks at all times when outside the home is the very definition of government overreach. Please refrain from restricting the freedoms of your citizens further.

Thank you for your time,

Mark Coonrad and family
