November 9, 2017

Mr. Karl Hagerman,

We are pleased to present our proposal for the above referenced project. Electric Power Constructors shall provide engineering and Labor to install New J-box, Switch Cabinet, Primary Meter Cabinet this includes all trenching and conduit required to re-energize new underground feeder.

Base Bid: \$59,225.

The proposal is predicated on the following terms and conditions:

- EPC will work with PMP&L to coordinate outages and construction efforts as necessary.
- PMP&L to provide all material for this project.
- PMP&L to work with EPC and provide equipment as necessary. Excavator, compactor, equipment trailer, boom truck or forklift, bucket truck, reel trailer and puller or rope.
- EPC is not responsible for any permits or fees associated with this project, including SWPPP or traffic control and locates.
- EPC will only warranty our work.
- EPC anticipates 5-10hr work days on site.
- EPC will not be responsible for any site restoration or haul off. (Asphalt, Concrete, Landscaping)

If you have any questions or concerns please feel free to call or email me.
