Subject: Kake Access Project

I would like to request that the Assembly adopt Resolution #2020-21, re the Kake access project.

There are many many unanswered questions re this project, the foremost being the why. This project has had many reiteration over the years and I for one would like more information re this huge expenditure of public funds. It seems most appropriate for the Petersburg Borough Assembly to request a public hearing to both hear Community concerns and to answer questions from the public about the purpose and need of this project before proceeding further.

Thank you, ***Beverly Richardson***
