Re: New Dock Project Adjacent To Harbor Office

Glo;

I am writing as the engineer of record for the New Dock Project Adjacent to Harbor Office. The bids were open on October 31<sup>st</sup> @ 2:00 pm. There were four bidders and all were responsive with all the required documentation. The apparent low bidder is Tamico, Inc. of Petersburg, Alaska. The total low base bid was \$187,500.00 with additive alternate #1 bid of \$1000.00. The engineer's estimate for this project base bid was \$286,800.00 with additive alternate #1 of \$1600.00.

I have reviewed all of the bids and find all four bids in order with no irregularities. I recommend award of this project to Tamico, Inc. of Petersburg, Alaska, for the total amount of \$187,500.00 for the base bid and additive alternate #1 bid of \$1000.00.
