

We, the undersigned citizens of Petersburg, hold that the proposed ordinance #2020-19 should be nullified in its entirety.

We believe that the people and our elected officials should be intimately involved in determining what constitutes an emergency in our community and the appropriate actions needed in such an event.

We believe that ultimately a vote of the people must be called if any invasive actions, limitations, restrictions, penalties, or mandates of any kind be proposed.

We believe that existing Chapter 3.72, as adopted under Ordinance 899-3 in 2006, is adequate to address emergency preparedness and emergency services for our Borough; while it is imperfect, it has provided sufficient direction, up to and including the current 2020 situation. The proposed ordinance is not an improvement, is not necessary, and can endanger civil liberties.

We ask that you hear us and VOTE TO COMPLETELY DISCARD Emergency Ordinance 2020-19.

We, the undersigned citizens of Petersburg, hold that the proposed ordinance #2020-19 should be nullified in its entirety.

We believe that the people and our elected officials should be intimately involved in determining what constitutes an emergency in our community and the appropriate actions needed in such an event.

We believe that ultimately a vote of the people must be called if any invasive actions, limitations, restrictions, penalties, or mandates of any kind be proposed.

We believe that existing Chapter 3.72, as adopted under Ordinance 899-3 in 2006, is adequate to address emergency preparedness and emergency services for our Borough; while it is imperfect, it has provided sufficient direction, up to and including the current 2020 situation. The proposed ordinance is not an improvement, is not necessary, and can endanger civil liberties.

We ask that you hear us and VOTE TO COMPLETELY DISCARD Emergency Ordinance 2020-19.

We believe that existing Chapter 3.72, as adopted under Ordinance 899-3 in 2006, is adequate to address emergency preparedness and emergency services for our Borough; while it is imperfect, it has provided sufficient direction, up to and including the current 2020 situation. The proposed ordinance is not an improvement, is not necessary, and can endanger civil liberties.

We ask that you hear us and VOTE TO COMPLETELY DISCARD Emergency Ordinance 2020-19.

We, the undersigned citizens of Petersburg, hold that the proposed ordinance #2020-19 should be nullified in its entirety.

We believe that the people and our elected officials should be intimately involved in determining what constitutes an emergency in our community and the appropriate actions needed in such an event.

We believe that ultimately a vote of the people must be called if any invasive actions, limitations, restrictions, penalties, or mandates of any kind be proposed.

We believe that existing Chapter 3.72, as adopted under Ordinance 899-3 in 2006, is adequate to address emergency preparedness and emergency services for our Borough; while it is imperfect, it has provided sufficient direction, up to and including the current 2020 situation.
