Subject: Please support the emergency operations plan

To our Borough Leaders and Assembly. Thank you for all your efforts to help keep our town safe. What a scary time this has been. Others have spoken more eloquently and intelligently than I can about the need for a clear emergency operations plan. I do not believe that this ordinance hampers us or gives undue power over others to be used without care. So many of us are scared and frustrated and just plain tired right now. Our opinions may come out more harshly than is ideal. I'll simply say, please support the emergency ordinance so that we can respond effectively to large, unexpected events or disasters. I believe our town will find ways to come together, but we need some structure to prevent confusion and chaos in the event of a disaster.

Sincerely,

Susan Ohmer
