Hi!

Thank you, Jeigh for the response though i along with others are feeling dismissed and minimalized. I guess that is the nature of politics and bridges built on trust have eroded. Its tough these days to sense when a person's belief of being right about something stems from facts, fear, ignorance or arrogance. Time has a way of revealing truth. I tend to trust more the person who is capable of acknowledging they were premature in judgement/decision (even wrong) versus the person incapable for whatever reason of changing their mind.

Right now i am at a stalemate in regards to supporting many of the assembly members.

Thanks to Mark and Brandi for their efforts.

Thanks for the email. Although I'll be voting for and advocating for the ordinance, I do appreciate your letter.

Warmly,

Jeigh

hi!

I recommend the Borough Assembly NOT proceed with the changes to Emergency Order 2020-19.

Updating to change references of the City to Borough is fine.

If you want to proceed with this major change, put it up for vote by citizens.

Thanks for reading,

JoAnn Thynes
