Subject: Letter of Interest to serve on Parks & Rec board

Hi Debra,

I just wanted to offer a formal letter of interest in serving on the Petersburg Borough Parks & Rec Advisory Board after the fall 2020 elections.

I had submitted a candidate form for the election but just missed the 5 pm deadline!

Here is my original letter in regard to serving as a volunteer on the board for your review...

I am writing to express interest in serving as an interim member of the Parks & Recreation board for Petersburg Borough.

My husband and I are frequent users of the Community center and are invested in seeing the department flourish and serve the community for years to come.

I have also been a fitness instructor for Parks & Rec and understand that end of operations as well!

I have a background setting up and growing a successful small business in the community as well as many years experience in executive management of nonprofit organizations. I believe my professional background could be of use as we work to set our facilities and staff up to thrive amid uncertain budgetary and community health conditions.

As a proponent of creating this commission, I wanted to also take accountability for ensuring it succeeds as the Assembly envisioned when authorizing it.

I also currently serve on the boards of the Petersburg Arts Council and the Southeast Alaska Watershed Coalition.

Thank you for considering my interest & application.
