Subject: Masking

I know you are going to be having a meeting on masking. So here is what I have to say..

Why should there be a mandate in place if no one is going to enforce it? If you look around town there is a lot of us that CHOOSE not to wear one. If someone wants to wear them then by all means wear it. But trying to force someone to do so against their will is not ok! It is MY choice of what I wear and that includes what I put or don't put on my face. Living in fear of fines and such is not living. I choose to live my life and I will not be forced into what I don't believe.
