Subject: Mask warring.

I work at the hardware store. I have been able to work thru out the pandemic. I have not missed one day of work. I help my 73 year old mother everyday. She has not been sick either. It is very hard to ware a mask 8hrs a day. But most of all I believe it should be my choice to ware a mask. And just where is the funding gonna come from to have guards stand post at these place to make sure we are warring our masks. I can think of much better use of this money for our community.
